Company Representative(s) at DEFSEC Atlantic 2015

Mr. Tom Cronkite, Sales Representative, **Tel:** 315-415-6853, **Email:** Cronkite@dreamscape.com

Company Profile

Ellwood National Forge Co. (ENF) leverages its three decades of **Program Management** experience employing **Integrated Product Teams (IPT)** and its proven and exceptional **operational skills** to maximize the probability of success in meeting its customer's requirements. ENF uniquely offers its customers a vertically integrated fulfillment profile by controlling the major operations of steel melting, forging, heat treating, machining as well as painting and assembly in some cases. ENF's Quality Management System has been fully certified to ISO 9001:2008 by ABS Quality Evaluations, Inc. by virtue of robust process control, experienced manufacturing personnel, documented process procedures / work instructions and consistent plan execution. The ENF ISO 9001:2008 certificate number is 33262.

Major Product Lines:

- Hard target ordnance produced in a wide variety of sizes and configurations used in air delivered systems
- Gun tubes and breech components for artillery systems
- Tension leg, riser components, and other engineered components for offshore oil platforms and drilling equipment
- Turbine rotors for electrical power generation equipment
- Wind turbine shafts for use in a variety of wind turbine sizes
- Hydraulic cylinders for industrial presses and other heavy capital equipment
- Acceleration and arrester cylinders used in the construction of automotive testing and defense applications
- High-pressure vessels used in the construction of hot and cold isostatic pressure vessel systems

Competitive Advantages

Production of high length/width ratio products with a bored interior diameter for a variety of applications.

Company's Objective at DEFSEC Atlantic 2015

- 1) Increase the brand identity of the Ellwood Group, Inc. as a "Single Source – Single Reliability" teammate for finished forging components.
- 2) Make contact with key and decision makers in the Canadian defense shipbuilding industry.
- 3) Demonstrate knowledge and credibility through their success in providing the Littoral Combat Ship Freedom class ship shafting
- 4) Gain a basic understanding of the Canadian National Shipbuilding Procurement Strategy, time line and how the Ellwood Group, Inc. may become a supplier to prime contractors selected under this strategy.
