

U.S. Exhibitors at EUROBIKE 2015 participating in the exhibitor support program:

Cane Creek Cycling Components

www.canecreek.com

Products/Services:

Cane Creek Cycling Components is based in Fletcher, North Carolina. The company offers a range of products including headsets, rear suspension, seat posts, bar ends, brakes and brake levers. There is also a full range of clothing such as shirts, socks, accessories, bibs, jerseys, shorts and vests.

Seeking: interested in meeting Wholesalers & Retailers, OEMs

Countries: Worldwide

Location: B1-403

Co-Motion

www.co-motion.com

Products/Services:

Tandem bicycle design leader Co-Motion Cycles makes touring, travel, folding, racing, custom and beautifully crafted tandems and single bikes.

Seeking: We are interested in finding a distributor for our bikes in Germany and the surrounding countries. Since our bicycles are made to order and a bit of a niche product, we are also interested in pursuing specialty retailers in areas not served by distributors.

Countries: Primarily Germany, but also looking for contacts in Benelux, Austria, France and the UK

Location: B1-414

King Cycle Group

<https://www.chrisking.com>

Products/Services: a manufacturer of bicycle parts and bike frames based in Portland's northwest industrial district. For over 30 years Chris King Precision Components has manufactured intentionally built industry leading bicycle components of the highest quality. Our hubs, bottom brackets, and headsets are strictly made in the US from domestically sourced goods utilizing environmentally progressive production practices.

Seeking: seeking wholesalers and retailers

Countries: Poland, Scandinavia, Italy

Location: B1-304

Knight Composites, LLC

www.knightcomposites.com

Products/Services:

The result of Knight Composites engineers' knowledge, industry leading experience and hard work, are a selection of wheels designed to offer superior aerodynamic benefits regardless of riding conditions. Whether you are trying to set a new Personal Best in a race, or leading the charge in the town line sprint, Knight Wheels are engineered to give you an aerodynamic edge. Knight Wheels are available in three specific rim depths that cover a broad range of riding styles, conditions and terrain. All rims have been optimized for aerodynamics, weight and stability.

Seeking: Seeking wholesalers outside of Europe, retailers worldwide, and sales Agents

for Europe (except UK, Spain and Germany)
Location: B4-104 (with Shocker Distribution)

PARLEE Cycles

www.parleecycles.com

Products/Services:

Parlee began with the philosophy of building bicycles of the highest quality and performance, always focusing on the engineering potential of carbon fiber. While other companies focus on the marketing potential of carbon fiber, Parlee is always striving to improve their bikes through engineering. Parlee produces 100% of every bicycle they sell; the tubes, lugs, dropouts, bottom bracket shells; even the carbon fiber cable stops and bottle bosses are made in-house.

Seeking: seeking importer/distributor for Germany

Countries: Especially Germany

Location: A3-711

RAVX, Inc.

<http://ravx.com>

Products/Services: Cycling accessories and bicycle components for every cyclist. RavX offers top of the line parts for serious racers as well as products for recreational bike riders.

Seeking: Wholesalers - distributors

Countries: In Germany and many countries in Europe

Location: A5-409

Rolf Prima

www.rolfprima.com

Products/Services:

Rolf Prima makes premium bicycle wheels for road, mountain, triathlon, cyclocross, tandem, track, town, single speed and folding bikes. All wheels are manufactured by hand in Eugene, Oregon, USA.

Seeking: We are looking to expand our distribution reach within new countries where we don't currently have distribution.

Countries: Especially Germany, France and the UK

Location: B1-414

Strider Sports International, Inc.

www.striderbikes.com

Products/Services:

Strider Sports International, Inc. designs efficient, no-pedal balance bikes that encourage toddlers to ride, learn, and explore the world on two wheels. Founded by Ryan McFarland in January 2007, Strider Sports is a company full of passionate riders of dirt, mountain, street, and road bikes. The goal of Strider Sports is to simplify a bike to its essence, so that proper size, lightweight and simplicity combine to eliminate any fear of riding and instill confidence in young new riders.

Seeking: Our objective is to find both wholesalers and retailers for Strider products in Europe.

Countries: all regions (excluding Slovakia, Nordic countries, Italy, UK and Ireland)

Location: FG-B8/3
