Doug Langhans, Chair Elect, doug.langhans@cortland.edu

The mission of the Study New York consortium is to work collaboratively with its member colleges, universities and partners through special programs and global outreach to promote New York State internationally as the premier education destination for students, researchers, visiting professors and other exchange visitors.

Study New York, Inc. was founded in 2009 and is the largest consortium of colleges and universities in the U.S., comprised of independent (private, non-profit) colleges and universities, State University of New York (SUNY), and City University of New York (CUNY) colleges and universities. With over 50 member institutions across New York State, we offer a broad variety of study levels and degree options through Study New York institutions. In addition to the great academic opportunities students have when studying in New York, they are living in an area that allows them easy access to a variety of cultural events and historic sites that add to their overall experience.

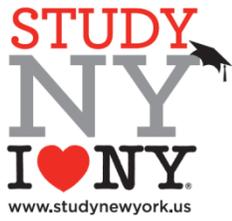

In recent years Study New York has **hosted visiting delegations** from several countries interested in visiting our member schools and making valuable connections with our members.

In addition, Study New York will sponsor a **virtual college fair for international students across the globe on October 19, 2016** through a partnership with College Week Live. Direct students to the Study New York website – www.studynewyork.us – for more information.

We have Study New York representatives **attend international education conferences and recruitment events overseas** to promote the value of studying in New York.

We can arrange **in-person or electronic presentations** on the high quality and broad diversity of study options in our state to international student groups and EducationUSA centers overseas.

Contact us directly to discuss how we may assist you and your students learn more about what we have to offer at Study New York.
