

## Virtual Education Fair – connecting U.S. education to the World

The U.S. Foreign Commercial Service in Sofia successfully organized and hosted the first virtual education fair in Sofia in April. During the webinar six U.S. universities gave a presentation via internet connection explaining more about their programs for international students, admission & application process and highlighted perspective educational programs. Representatives of 20 Bulgarian educational consultants were present during the fair and wanted to understand more about the U.S. schools and how they can partner successfully and bring together the U.S. education to Bulgaria and the region.

The U.S. universities that participated in the virtual education fair included the American Business & Technology University, Austin Peay State University, Chatham University, The College of Saint Rose, Husson University and Troy University. For more information about the universities and to get in touch with them please follow this [link](#) or contact [Peter.Delin@trade.gov](mailto:Peter.Delin@trade.gov) with the U.S. Foreign Commercial Service Sofia.

### About the U.S. Foreign Commercial Service

The US FCS helps U.S. companies expand in foreign markets and bring high-value investment in the US. Bilateral trade between Bulgaria and the U.S. is increasing and reached record levels of nearly \$ 1 billion in 2014! We recruit buyer delegations to trade shows in Europe and the United States and work with our extensive U.S. network to connect you to U.S. suppliers. If you are a Bulgarian company looking to start your business in the U.S., we can connect you to our colleagues at Select USA, a U.S. government agency dedicated to helping investors enter the U.S. market.
