"This event allows the Brazilian Armed Forces to have access to modern equipment to assist in the effective monitoring of our natural wealth"
JOSÉ MELO
AMAZONAS STATE GOVERNOR

SIOPSELVA

**A UNIQUE EVENT
IN THE WORLD**

The SIOPSELVA is a unique event since it allows the Defense and Security industry to present their products and services directly to a selected audience, including the best Brazilian and foreign experts in jungle operations.

Brazil has the global recognition by having the best Jungle Warfare Training in the world and a track record in this environment. The Brazilian Army, through the Amazon Military Command, was in the forefront when bringing together a event with such international projection, as is the SIOPSELVA.

SIOPSELVA allows the display of materials and equipments, including dual use, to the Brazil and

foreign nations defense and security forces.

The event has significant participation of authorities and the Brazilian Army, Ministry of Defense, Brazilian Navy, Brazilian Air Force, Public Safety Agencies of the States of Acre, Amazonas, Pará, Rondônia and Roraima, Governmental Institutions, entrepreneurs, domestic and foreign guests and audience of more than 3,000 people.

SIOPSELVA has a format that enables companies to participate in pannels about jungle operations by Brazilian and foreign experts, to have access to information about the Brazilian Armed Forces

requirements for the vast area of the Amazon region, with 5.2 million km², and present their products directly to a select audience.

OPPORTUNITIES

Establish direct contact with key decision makers.

Get to know the strategic projects of the Brazilian Armed Forces and Public Safety Agencies for the Amazon region.

Present products and solutions to highly qualified users.

Gain ground in the promising Defense and Security market in Brazil.

Establish networking, exchange knowledge and partnerships.

COBRA PROJECT

During SIOPSELVA, the Brazilian Army is discussing with exhibitors and other participants of the Seminar their requirements for the COBRA Project (Projeto Combatente Brasileiro do Futuro).

SISFRON

In 2018, the Brazilian Army will be running the second phase of SISFRON Project (Sistema de Vigilância de Fronteiras). An excellent opportunity for companies to present their products and solutions.

AMAZONLOG 2017

The Army Logistics Command, during the Seminar, will be presenting its planning for a large logistics multinational exercise (AMAZONLOG 2017) which will be held in the Amazon in the 2nd half of 2017 and its intention to assess the operational readiness status and defense industry materials during this exercise.

GUESTS:

Inter-American Defense Board

Conference of American Armies

Consejo de Defensa Suramericano

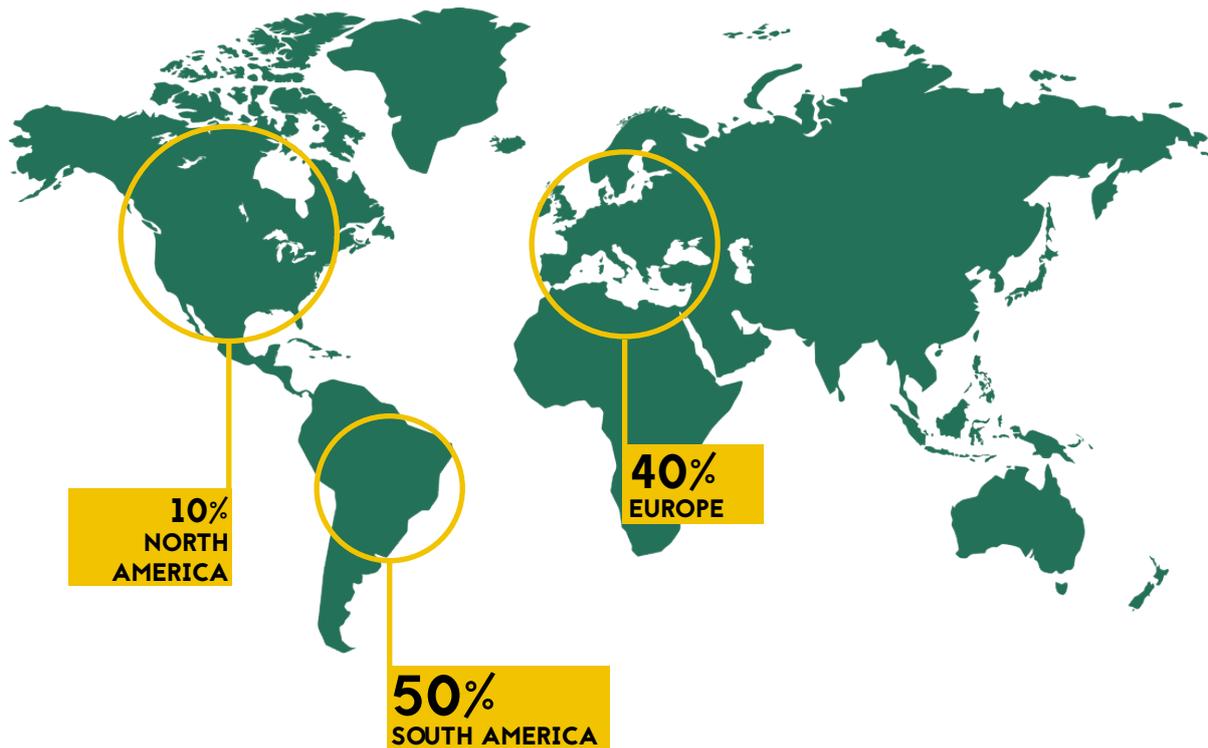

INDUSTRIES IN THE AMAZON

Also during the seminar, the Brazilian Army together with the Industries Federation of the Amazonas State (FIEAM) will be talking directly with exhibitors about their needs in the areas of energy, communications, logistics, transport, construction, sanitation, water, food and health, which contribute to the sustainable development of the Amazon region.
