*"Indonesia has proven resilient to the global liquidity crisis as foreign investors continue to flock to the country, a sure sign of high confidence in the economy....Good times are set to continue in Indonesia."*

*From Indonesia : 2007 Year in Review  
Oxford Business Group*

## Consider Indonesia — —

### A Fast Growing Market for U.S. Exports

Powered by its export growth, Southeast Asia's largest economy grew by 6.3% in 2007 -- U.S. goods exports surged by 37%, to over \$4 billion. With a growing population of over 230 million, Indonesia is the world's 4th largest country. It's also a thriving, secure democracy.

Indonesians are out shopping

A huge consumer market: 50% of the population is below 30

Since 2004, Indonesia's goods imports have more than doubled, to over \$85 billion. The global commodities boom has spread wealth throughout this huge country and massively increased demand for an enormous variety of American products and services.

### Leading sectors for U.S. Products & Services Include:

- Aircraft and Parts  
*Domestic air traffic growing 25% per year*
- Education and Training
