

DistribuTECH 2017

Join the U.S. Commercial Service to visit the premier North American trade show focusing on the Transmission, Distribution and Smart Grid Technology industries.

About the Show

DTECH 2017 is the premier North American trade show for equipment vendors and service providers from across the transmission, distribution, and smart grid technology industries. The event also attracts attendees from electric utilities, water utilities, gas utilities, federal power agencies, energy service companies, energy service providers, energy end users and a wide-range of manufacturers and vendors.

- √ Over 12,000 attendees and 500 exhibitors
- √ Visitors and buyers from 70+ countries
- √ Seminars and Site Visits

Benefits of Joining the Delegation

- √ Complimentary Registration for the show (value of the free exhibit hall access is \$125)
- √ Pre-arranged and facilitated briefings, meetings (including Meet and Greet meetings) with U.S. exhibitors and U.S. industry associations, customized according to your buying interests.
- √ List of exhibitors who export or indicate an interest in exporting to the group's country and/or region of the world.
- √ Complimentary use of the International Business Center, for B2B meetings with U.S. exhibitors, private meeting rooms, refreshments, free wifi-Internet access and interpreter assistance (when requested by IBP Project Officer by January 9, 2017).
- √ Optional site visits (see details in the enclosed registration form). Please note that the site visit will be organized subject to the response received from the delegation.
