Dr. Pei-Wen Liu is the deputy director general of CyberTrust Technology Institute of III, a team leader of more than 120 well experienced cybersecurity engineers dedicated to R&D and providing service to Taiwan government. Dr. Liu also serves as director of ICST (Information & Communication Security Technology Center) and TWNCERT (Taiwan National Computer Emergency Response Team) of Taiwan government since 2003.

During his career, Dr. Liu has been responsible for several important information security initiatives for the government of Taiwan, including the NSOC (National Security Operation Center) project, Incident Report & Response Mechanism, and ISMS directives & guidelines for government sectors. Dr. Liu also

led the research team that discovered several zero-day vulnerabilities with Microsoft Windows & Office, which have been highly recognized by Microsoft.

Dr. Liu is the honoree of 2008 (ISC)2 Information Security Leadership Achievements, and honoree of 2012 Excellent Electrical Engineer Award of the Chinese Institute of Electrical Engineering.
