The median age is 27.4 and 57% of the population is below the age of 30!

Population: 89,571,130 (July 2010 est.)

U.S- Vietnam Relations

After a 20-year break in diplomatic ties, President Clinton removed the trade embargo on Vietnam and normal diplomatic ties were established on July 11, 1995. In December 2001 the Bilateral Trade Agreement came into effect, dramatically increasing economic exchange between the two nations. Overall bilateral links continue to grow steadily. Vietnam joined the WTO on January 11, 2007.

Vietnam at a Glance

Economy

Vietnam is one of the most dynamic markets in the world. Consistently strong economic growth combined with a more open, market-oriented trade policy is fueling major trade and investment opportunities for U.S. companies. With the economy currently growing at 7%-8% a year and industrial production expanding at twice that rate, Vietnam's economy is on the path to doubling in size over the next decade.

* Economic statistics taken from CIA World Factbook and U.S. Department of Commerce
