

VIRGINIA | VIRGINIA'S GATEWAY REGION

Virginia's Gateway Region can assist your company with a strategic location in the eastern central United States, delivering easy access to major markets.

- Our team can provide tailored research, provide confidential site selection assistance and make introductions to the professional service providers to support your operations in Virginia.

CCAM - VIRGINIA

Virginia's Gateway Region is also home to advanced manufacturing and logistics innovation. The region is known for game-changing industry-university collaborations, utilizing the Commonwealth Center for Advanced Manufacturing and a 1,000+ acre aerospace campus home to global aerospace giant Rolls-Royce. The MSA is home to more than 150 international company's representing 31 countries worldwide and a wide array of advanced manufacturing industries, distribution, logistics and specialty food products.

The Gateway Region is served by multiple regional airports as well as rail-served sites with double-stacked rail via the Port of Virginia to Chicago and the Midwest. The region is a premiere location for distribution, supporting major distribution centers including Amazon and Wal-Mart and hubs for both UPS and FedEx.

ROLLS-ROYCE - VIRGINIA

Contact us today to connect with the region's business community to discover a world class business location and the right mix of assets to help you grow your business strategically and efficiently.
