

INDIANA | (CED) MADISON COUNTY

Conveniently located just northeast of Indianapolis, along Interstate 69 and near Interstate 70, Madison County offers a prime location allowing us to reach over 70 million people within a 6 hour drive. A dual rail system, as well as a heavy reliable and redundant electrical grid, superior connectivity features, excellent quality and

quantity of water, sewer, and natural gas services all at highly competitive prices allows Madison County to meet the needs of any prospective company.

We know that business is the lifeblood of any economy, which is why we make it easier for businesses to succeed. We are very committed to ensuring best-in-class support for our business partners: lower business costs, shovel-ready sites,

availability of skilled workforce, low cost of living, and a team fully dedicated to support you. Our success of over 3,300 new Jobs and \$1.5 Billion Investment in the last 7 years is poised to continue as our team of 11 economic development professionals with strong multi-national experience promotes our Business Friendly community. With an extremely competitive incentive plan, Madison County helps companies with their initial investment as well as incentives for training your workforce, further investments, and additional help to succeed in the market.

KEIHIN - MADISON COUNTY, IN

The training of two top universities and two community technical colleges, and an experienced workforce that is continuously being retrained to meet the needs of our growing global community, Madison County also boasts one the lowest workers compensation rates in the Midwest and is among

the very lowest in the country. We are a "Right to Work" State and Madison County has experienced no successful union activity in over 20 years!

Building off of its nearly 100 year legacy of automotive electrical engineering, Madison County has also emerged as the leader in Indiana in new advanced technology and alternative energy

research and development. The Flagship Industrial Park is currently home to companies such as Echo Automotive, an electric vehicle component manufacturer, Greenville Technology Inc. (GTI), a Tier 1 advanced automotive parts manufacturer, and Keihin North America, a Tier 1 advanced automotive parts manufacturer's North American Headquarters and Engineering Center.

FLAGSHIP ENTERPRISE CENTER – MADISON COUNTY, IN

Madison County continues to experience strong growth in business, most notably with Nestlé's production and warehousing facility, also located in the Flagship Industrial Park. After several expansions, Nestlé currently has invested over \$700 Million and created over 700 new jobs at its 1 Million square foot facility in Anderson and continues to expand. A number of other businesses from various industrial sectors also chose Madison County, making the community's economic base very viable and diverse.

Madison County's diversity in industry also reflects our strong Foreign Direct Investments.

Companies such as Nestlé from Switzerland, HDP from Israel,

NESTLE - MADISON COUNTY, IN

Muhlen-Sohn from Germany, Taditel from Israel, ELSA from Japan, Atlas Cold Storage from Iceland, Mancor from Canada, Carter Logistics partners with Japan, Greenville Technology Inc. from Japan, and Keihin North American Headquarters from Japan now call Madison County, Indiana their home.
